

AERO-PRO

Diffuser plenum box SLIM BOX 2x75

Technical specifications

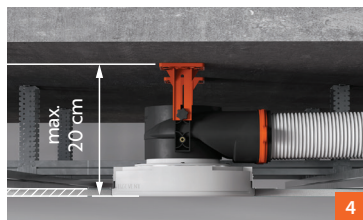

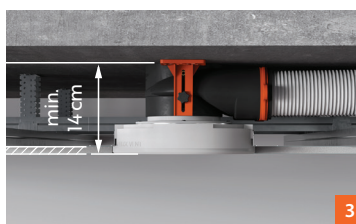

The low-profile plenum box AERO-PRO / SLIM BOX 2x75 allows for the installation of the ERGOVENT diffuser in just a 14 cm space (**fig. 3**). However, it is also fully suitable for installation in spaces up to 20 cm, as the box height can be adjusted using the side brackets (**fig. 4**). The plenum box is compatible with ERGOVENT RONDO-125, KVADRO-125, and other diffusers with a 125 mm connection.

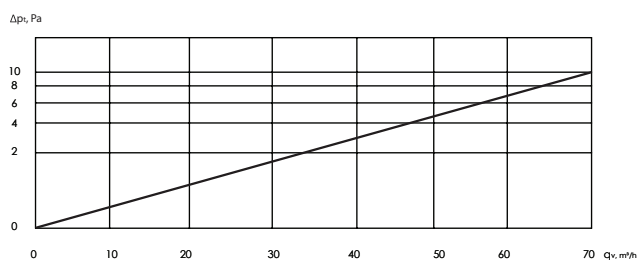

INSTALLATION

The option to mount through the center (**fig. 1**) or using the side brackets (**fig. 2**).

AERO-PRO, SLIM BOX 2x75 (supply air)

AERO-PRO, SLIM BOX 2x75 (extract air)
